Looking Toward The Future

Printing Services in conjunction with COT's Operations Services Branch have recently acquired a Web-based online job submission tool known as *EFI Digital Store Front 3.0*. This tool will enable agency personnel to log into our Web-based application and submit job orders online. Customers will be able to submit jobs using a standardized job ticket that delivers the job electronically to the Digital Store Front server. We believe this tool will offer the opportunity for our customers to save valuable working hours and provide a quicker turnaround time on print requests. For more information on this tool you can contact Bill Kidd at (502) 564-2670.

PrePress

To achieve your desired result of a successful print project, file preparation is one of the most important parts. Our staff at Printing Services is only a phone call 564-2670 or e-mail COT.PrintingServices@ky.gov away in helping you with any questions you may have. We support a variety of PC based applications and can assist with file preparation & design.

Printing Services Offset Printing – RYOBİ 524 HE

With the purchase of the RYOBİ 524 HE four-color offset press we will once again be able to meet State Agencies' need for four-color process color printing. The RYOBİ 524 is capable of handling a wide variety of paper types and sizes to meet your Agency's print order specifications. With the combination of the superior quality offered by the RYOBİ name and the updated Mitsubishi DPX(2) Computer to Plate system, we are able to efficiently handle many types of printing requests ranging from brochures, booklets, presentation materials and postcards and deliver a consistent high quality product. Feel free to call Larry Jackson or Ralph Eversole at 564- 2670 for an estimate on your next printing order or with questions concerning our printing capabilities.

Wide Format Color Printing

The acquisition of two Canon IPF 9000 large format printers enables the Division of Printing Services to take large format color production to the next level. The IPF 9000 delivers impressive 60" full color output to indoor and outdoor media. The New Dual Print Head system with a total of 30,720 nozzles and the 12 Color Pigment Ink systems allows for a much wider expansion of the spectrum of colors we are able to deliver and match, and with printing at 1200x1200 DPI the colors are cleaner and sharper than ever. Many customers have already seen for themselves the quality of output from these new devices and the feedback has been very impressive. We encourage everyone to keep these devices in mind when planning your next big event. Signs and Posters are a great way of increasing interest and turnout and we are here to assist in any way possible.

Digital Color Copying/Printing

The Division of Printing Services utilizes the Canon Image Runner system for color reproduction that delivers accurate, consistent color reproductions in a print on demand environment. These devices are ideal for integrating your color documents into all your business applications.

Monochrome Digital Print Centers

The Division of Printing Services operates Digital Print Centers located within Frankfort to conveniently meet customer printing needs. The main Digital Print Center is located at 275 East Main St., Frankfort Ky., 40621 inside the Human Resources building on the 1st floor. You can contact the Print Center by dialing (502) 564-8021, ext. 4083. We also have a Digital Print Center located within Natural Resources at 14 Reilly Road, Frankfort Ky. 40601 to service customers in and around that location. You can contact the Print Center by dialing (502) 564-6716, ext. 135.

The Digital Print Centers perform a wide variety of printing needs for their customers including black & white copying and printing, report binding, and overall print consultation. We have invested in machinery which allows us to offer both *Perfect Binding* and *Saddle stitching* options in-line. For the customer this means that we are able to layout, print and bind your books all at one location and in one process which has greatly increased our turnaround times and allows us to better meet our customer demands. We also offer the traditional *GBC*, *Tape Binding*, *(3) Hole Punch*, *Folding*, etc upon request.

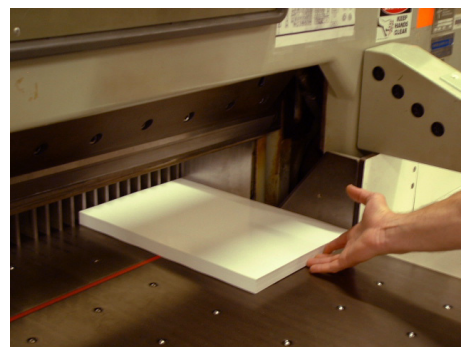

The Digital Print Center personnel work closely with our customers to ensure a high quality finished product. We try to look for ways to improve on the product if possible, such as merging mailing addresses onto letters and booklets which are going to be mailed out, saving the customer time and money in self labeling or having to send the product to outside vendors. We value our customers' opinion and business and work very hard to professionally meet their printing needs.

Finishing

Finishing and other specialty services are an essential part of Printing Services. We are able to provide various finishing touches to printing orders as listed below:

- Booklet making, from 2 to 20 pages ranging in size from 4 x 6 to 8 ½ x 11.
- Collating, including straight stack collating, collate with a corner stitch or side stitching.
- Perforating, including large and micro perforation.
- Folding, including traditional tri-fold, letter fold, single fold, right-angle fold, and other assorted folds.
- Also provided are 3-hole punching, numbering, wrapping, rubber banding, padding, GBC bound books, cutting and trimming paper stock.
- UPS shipping available.

The Division of Printing Services is committed to providing our many customers with quality, professional customer service. We have invested in many technological improvements in order to better meet both current and future printing demands and we feel we offer a service to the Commonwealth of Kentucky's many State Agencies that is second to none. The Division of Printing Services can be your one stop-shop to fulfill your printing needs. From layout and design to the finished product, you can count on us to deliver a quality product that meets both your needs and expectations.

From the staff here at Printing Services we want to say *"Come on in"* and take a look at where we're headed. We think you'll like what you see.
